THE VISIAN ICL ON DUTY IN SOME OF THE MOST HOSTILE ENVIRONMENTS IN THE WORLD.

When nothing less than ultimate vision performance will do.
THE VISIAN ICL HAS BEEN IMPROVING THE VISION OF THE BRAVEST PEOPLE IN OUR NATION

- Since it was introduced in 2006, the US Military has routinely used and implanted over 3,000 Visian ICLs, these surgeons becoming some of the highest volume ICL users in the country

- The Visian ICL provides outstanding results in a younger group of patients typically with lower levels of myopia

THE VISIAN ICL HAS PROVIDED AN EXCEPTIONAL QUALITY OF VISION FOR THE US MILITARY PERSONNEL

- Over 80% achieve UVCA on 20/15 or better

At 6-12 months
81% of eyes with UCVA of 20/15 or better
98% of eyes with UCVA of 20/20 or better

Day 1
75% of eyes with UCVA of 20/20 or better

- 86% achieve UCVA the same or better than pre-op BCVA

---

*Retrospective analysis of outcomes in 357 consecutive eyes of US military personnel implanted with the Visian ICL. 259 of the eyes had up to .75 diopter of astigmatism.

†In a retrospective analysis of outcomes in 139 consecutive eyes of US military personnel implanted with the Visian ICL. 111 of the eyes had up to 1 diopter of astigmatism.
